Tailored to your goals & lifestyle
-  **TRACK & IMPROVE**
Monitor progress and feel the difference
-  **SUPPORT FOR YOU & YOUR PETS**
Better wellness together

Pure CBD4U Launches Free All-in-One CBD Tracker App

's-Gravenzande, The Netherlands – July 2026

Pure CBD4U has announced the launch of its new CBD Tracker App, a free application designed to help CBD users manage their daily wellness routine with greater consistency and confidence.

Unlike many CBD apps that focus on a single function, the Pure CBD4U app combines multiple tools in one easy-to-use platform. Users can calculate their CBD dosage, track daily intake, monitor mood and sleep, receive smart reminders, follow long-term progress, and even calculate CBD routines for dogs and cats.

The app includes:

- Personalized CBD Dosage Guide
- Advanced CBD Dosage Calculator
- CBD Drops Calculator
- Daily CBD Intake Tracker
- Mood & Sleep Tracking
- Smart Daily Reminders
- CBD Pet Dosage Calculator
- Educational CBD Knowledge Center
- Progress Tracking & Statistics

All personal data remains stored locally on the user's device, and no account is required to start using the app.

"Our goal was simple: create one free app that gives CBD users practical tools they can use every day, whether they are beginners or experienced users," says Ronald Balvert, founder of Pure CBD4U.

The CBD Tracker App is available free of charge through Google Play.
